Summer 1985

Environmental Education Advisory Council

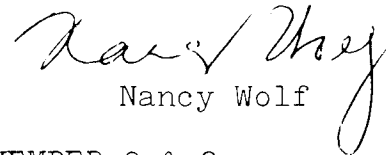

A voluntary organization in support of Environmental Education for New York

Dear Members of EEAC:

We've had a successful year once again and we are looking forward to many new activities when the fall rolls around. During the summer, we will prepare a new brochure for EEAC to distribute next year and we'll purchase materials for a new, colorful display. Mike Mann of the Steering Committee is working on our tax-exemption application so that EEAC can receive funds from individuals and/or foundations and corporations more easily.

The big news for Fall '85 is, of course, our conference. We hope everyone is planning to attend; if you would like to help out in any way, contact John Kominski, our Program Chairman, at (718) 596-6904. We'd like as much help as possible!

A happy summer to everyone and thanks to all who helped EEAC move along so well in '84-'85.

Nancy Wolf

CITY-WIDE CONFERENCE SCHEDULED FOR NOVEMBER 2 & 3

EEAC and the New York City Board of Education, Division of Curriculum and Instruction will sponsor a city-wide environmental education conference, "New York: Naturally!" on Saturday, Nov. 2, 1985, at Murray Bergtraum High School near City Hall (411 Pearl Street).

This event is designed to:

- . Showcase the environmental education resources available in the metropolitan area
- . Address current EE topics and issues
- . Highlight the programs and facilities of participating organizations
- . Network information and services
- . Provide everyone with an opportunity to meet similarly minded people
- . Enjoy the Big Apple

Saturday, November 2, will be reserved for workshops, seminars and presentations. Our keynote speaker will be Dr. Eugene Ezersky.

Sunday, November 3, will be devoted to field trips and related outdoor activities held around the city by cooperating agencies and organizations. Our objective is to focus public attention on the natural aspects of the New York environment and to introduce the public to the many excellent facilities in our area that routinely provide high calibre environmental education experiences.

If you or your organization would like to play an active part in this exciting weekend of events, contact John W. Kominski at (718) 596-6904. Mark your calendar now!

EEAC STEERING COMMITTEE MEMBERS

Elaine Alberts, PS 120 Q, Alley Pond Environmental Center (718) 229-4000
Rose Blaustein, Fireboat House Environmental Center (212) 289-2137
Ruth Eilenberg, Gateway Environmental Study Center (718) 252-7307
Benita Epton, NYC Urban Park Rangers (212) 360-8455
Dr. Eugene Ezersky, Cornell Cooperative Extension (212) 340-2900
Robert Finkelstein, Academy of Environmental Sciences (212) 869-5979
Carol Franken, Academy of Environmental Sciences (212) 869-5979
Sam Holmes, Gateway National Recreation Area (718) 338-3599
Bernard Kirschenbaum, Board of Education, retired

Hold this weekend for:
"New York: Naturally!"
an environmental
conference
for all.

Sponsored by:
Environmental Education Advisory Council (eeac) and
N.Y.C. Board of Education, Division of Curriculum & Instruction

ENVIRONMENTAL EDUCATION AT ST. JOHN'S UNIVERSITY

One of the most important recommendations coming out of the First National Congress on Environmental Education Futures (1983), stated that all pre-service teachers should be given exposure to the goals, concepts, methods and activities of environmental education. In keeping with this recommendation, the St. John's University School of Education and Human Services unanimously approved the creation of an Environmental Education Minor for its students. The E.E. minor begins with four liberal arts courses in Ecology, Natural Resources, Environmental Problems and Philosophy of the Environment. A final course entitled "Concepts and Practices of Environmental Education" was created to serve as a capstone for the minor. This course is specifically designed to give prospective teachers a comprehensive overview of the E.E. approach to education. Besides giving students their first practical experience in E.E. it also integrates the basic science, social science and humanity concepts of E.E. and shows how E.E. can be brought into existing curriculums.

Information about the program can be obtained from William Nieter, Environmental Studies Program, St. John's University, Jamaica, N.Y. 11439

SPECIAL THANKS TO CONSOLIDATED EDISON FOR PRINTING OUR NEWSLETTER.

Con Edison is offering to you the following four publications:
Con Edison Catalog of Free Programs, Exhibits and Literature,
About Energy - A Coloring and Activity Book, About our Environment
and Where They Lit Up New York (a self-guided tour of Thomas Edison's first district in downtown Manhattan). For your copies, call or write to: Consolidated Edison, Consumer Education, 4 Irving Place, Room 1625-S, New York, N.Y. 10003 (212) 460-6905

Thank you also, Rosemary Burris, Carol Nahr and Bill Nieter from APEC for your assistance in the preparation of this newsletter.

The following letter represents the next step in the statewide Environmental Education effort.

Dear Colleague:

The New York State Education Department has requested the Environmental Education Advisory Council to assist them in developing a talent bank of environmental educators. The participants in the talent bank should be willing to assist the State Education Department in the development of goals, objectives and sample teaching strategies related to environmental education (specifically Goal 7 of the Regents Goals for Elementary, Secondary and Continuing Education) and various school subjects such as science, social studies, language arts, etc. The Education Department will be contacting persons to participate as members of advisory committees, curriculum writers, curriculum reviewers, and field test teachers.

Persons who have either an academic background or experience in a discipline (K-12) related to environmental education, e.g., science, social studies, health, physical education, art, etc., and have either an academic background or experience with respect to actual work in environmental protection, who are interested in participating more directly in this vital effort to infuse environmental concepts into the total curriculum, please send your resume to:

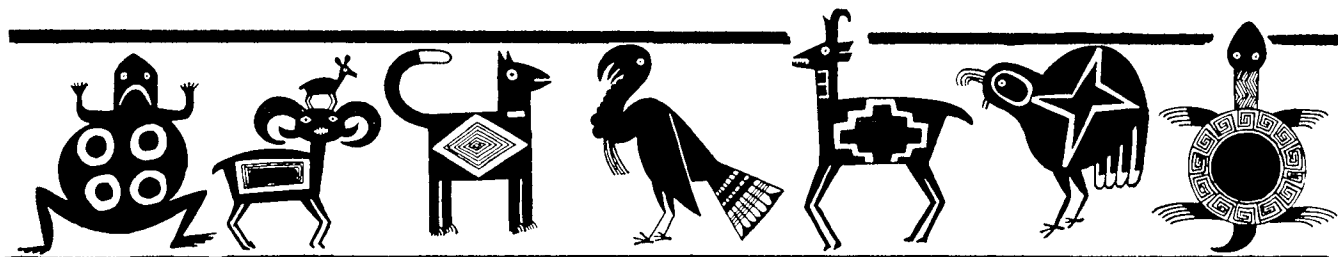

Mike Zamm
Council on the Environment
51 Chambers Street, Room 228
New York, N.Y. 10007
(212) 566-0990

We look forward to working with you. Thank you for your kind attention.
